

THE ORIGINAL ROBERTSON®
L'ORIGINAL®
DECKING PROGRAM

The Original ROBERTSON®

Fastening System | System de Prise

To avoid any problems make sure you're using a matching Robertson® screw and driver to ensure the proper fit. At Robertson it's the wedge fit that gives us our cling fit feature. We construct the complete fastener system and were able to offer the true recess that PL Robertson invented over 100 years ago – The Robertson® Drive.

ROBERTSON® "CLING FIT" PRISE ROBERTSON® AJUSTÉE

ROBERTSON® Bits and Screws provide maximum recess penetration and "Cling Fit".

Les vis et embouts ROBERTSON® procurent une pénétration maximale et une "Prise Ajustée".

RECESS TOO NARROW EMPREINTE TROP ÉTROITE

When the recess is too narrow, the driver does not penetrate deep enough into the recess.

Lorsque l'empreinte est trop étroite, la pointe de tournevis ne pénètre pas assez profondément dans l'empreinte.

RECESS TOO LARGE EMPREINTE TROP LARGE

When the recess is too large, the driver will wobble and cam out.

Lorsque l'empreinte est évasée, l'embout ne sera pas ferme et une fêture rebond pourrait se produire.

INCORRECT RECESS ANGLE ANGLE DE L'EMPREINTE INCORRECTE

When the recess or bit is at an incorrect angle, the driver will wobble excessively.

Lorsque l'embout ou l'empreinte se présente à un angle incorrecte, l'embout va osciller.

ASTER® Thread Feature / Caractéristiques:

NOW Standard on all Lo-Root® and Kwixin® Screws

MAINTENANT Standard pour toutes nos vis Lo-Root® et Kwixin®

- Serrated Tooth Thread Design / Profil Dentelé
- Quicker Starting / Engagement Rapide
- Reduces Splitting / Réduit le Risque de Fendillement
- Less Drive Torque / Requiert Moins de Torsion

THE ORIGINAL ROBERTSON®

IT'S NOT SQUARE – IT'S ROBERTSON®

Fastener selection is the fundamental component in the production of any woodworking, cabinetry or structural project. Choosing the right fastener for your millwork project is a vital part of the performance, durability and strength in your application.

There are many fastener products available on the market, in addition to many different fastening systems. Once you have selected the right material for your application, you need to determine the right screw and fastening system to use. Fastener hardware can make or break your application. Robertson® Fasteners make an exceptional fastener for fine appearance in industry work, whether it be decking, HVAC, cabinetry or woodworking. At Robertson Inc. we manufacture the true Robertson® drive that was invented over a century ago. We offer a wide-range of fasteners used in various applications including custom industrial screws, cabinetry, decking and other special fasteners, manufactured to tight tolerances and to exact specifications.

LO-ROOT® DECK SCREW FEATURES

- MAGNIGARD™ finishes offer exceptional corrosion resistance and are designed for ACQ treated lumber.
- Sharp thread angles and sharp points offer excellent penetration and thread engagement after the first revolution.
- 4 counter-sinking lugs under the head.
- Ideal for decks, fences, construction and docks.

CARACTÉRISTIQUES VIS A PATIO LO-ROOT®

- Le fini MAGNIGARD™ offre une résistance exceptionnelle à la corrosion et est conçu pour le bois traité ACQ.
- La pointe aiguisée et les filets tranchants, offrent une excellente pénétration dès la première révolution.
- Têtes auto-fraiseuses.
- Idéal pour Patio-Clôtures et construction général.
